

## Church Attributes Survey Results

Thank you for your help! In the spring, Holy Cross invited all registered parishioners to submit a questionnaire to the Liturgical Design Committee in order to help us give shape to the interior worship space of the newly expanded church. The survey was included in the bulletin several times in the past few months. The graph below illustrates qualities agreed upon by more than half of the 35 parishioners who responded to the survey. As a reminder, parishioners had the opportunity to choose as many attributes from the list as needed to describe the expanded church building.

*The raw data collected from the survey is included on the opposite side.*

### Church Attributes Chosen by More than Half of Respondents

## Church Attributes Survey Results

### *Raw Data*
